Why Constipation Injures.

The bowels are the natural sewerage system of the body. When they become obstructed by constipation a part of the poisonous matter which they should carry off is absorbed into the system, making you feel dull and stupid, and interfering with the digestion and assimilation of food. BOOSTING ARIZONA.

Arizona commercial clubs, wishing the country at large to appreciate better her vast resources and opportunities for immigration, are planning to bring representatives of every large commercial body in the country to this state some time during the summer. It has been proposed that the convention be held in either Phoenix, Tucson or Bisbee.

DENIES GOMEZ IS IN CHIHUAHUA

Douglas Officer Says Carranza Cavalry is Still In Sonora

G. M. Moore, Douglas police officer here yesterday, said the report that General Gomez is moving over the Chihuahua border from Sonora with thousands of troops which threaten the American line of communications, is grossly exaggerated.

"In the first place Gomez has only 600 cavalry, and not 6000. In the second all are on the Sonora side of the state border. And in the third, I saw Gomez personally in Agua Prieta yesterday," said Officer Moore.

Moore added that there had been no movement of troops from Douglas recently, either, although several detachments were issued field rations the other night, and were held in instant readiness for something, the nature of which the public is still ignorant.

MAYOR POSTPONES PARK DEDICATION

New Date Set For May 21. Will Be Day of Celebration in Bisbee

Mayor Adams has postponed the formal dedication of the new city park until May 21, owing to the quarantine. On that date, the mayor says there will be general celebrating and rejoicing throughout the city, with parades and plenty of amusement. Mayor Adams will then formally turn the new playground over to the city.

The original date for the dedication was April 23, on which occasion Governor Hunt had promised to be present. Mayor Adams wired the Governor Monday night, however, that the celebration would be postponed, but repeated his request for the executive's presence. No response has been received from the governor.

It is believed however that Governor Hunt plans to be in Bisbee April 27 regardless of the May date and that he will confer with the Warren trades council during his visit.

The little park is Mr. Adams' pride and hobby, and its popularity since its completion has afforded "His Honor" much satisfaction. With the exception of about \$6,000 provided in the city budget, the park was built wholly by public subscription and in dollars represents a \$20,000 asset to the city.

"It is too early to talk much about it, but I hope to see another fine park with trees and plenty of lawn in the upper part of town in the not far distant future," said Mayor Adams.

RIFLE CLUB STILL WAITING FOR GUNS FOR ITS MEMBERS

War Department Either Will Grant Requisition Today or Suspend Law And Ignore Bisbee.

The Bisbee Rifle club expects to know by tonight or tomorrow morning, whether it will receive the government rifles it sought to requisition recently, for club purposes. Some feeling is evidenced in the district over the recent refusal of the secretary of war to grant the requisition, and resentment is generally felt over the secretary's imputation that he feared some hot-headed members of the club would precipitate a lot of trouble.

This feeling reflected itself in Washington a week ago, when Senators Ashurst and Smith of Arizona on the floor of the Senate openly charged that discrimination was being done against the citizens of Bisbee, whose club was being refused arms, while those of other states were receiving their full quota.

It is believed a change of heart is about to be noted in the war department, and that Bisbee will receive the consignment of arms it sought, in accordance with the law.

The interest in the club has been a magnificent thing, until the war secretary's attitude became known. More than 250 citizens in the district were taking active interest in the club and almost as many more applications for membership were on the waiting list. On the range the practice work was progressing, and some remarkable marksmen were discovered. Then a lull came when word was received from Washington that no more arms would be issued, and things have been at a standstill with the club ever since.

If favorable news is received by the club today, Bisbee is destined to have one of the strongest clubs in the state, with a personnel including the mayor, and most of the prominent merchants and mining men in the district.

FUNSTON SENDS TWO THOUSAND MORE MEN

(Continued From Page One.) of regular troops from Texas border points to reinforce the American punitive expedition in Mexico.

Within the last several months many of the companies of the Texas National guard have been recruited to full strength.

REQUEST IS OLD ONE.

SAN ANTONIO, April 18.—General Pershing requested more troops some time ago but General Funston hesitated to order them because faced with the danger of weakening garrisons and patrolled points along the border. He has authority to move such troops in his department as he wishes, but the strengthening of a fan point from another department rests with Washington.

Staff officials here were convinced some days ago that unless Villa was taken before he got beyond points with in a short distance south of Satevo, the chances of getting him were remote. That point has been reported dead—and Villa remains at large—or undisputed hostility of various Carranza organizations that army men here declare, makes doubly necessary the strengthening of General Pershing's force.

OPUM CASE OPENS.

The hearing yesterday of Willis I. Larkins and Harry Francks, charged with having opium in their control, was continued until today by U. S. Commissioner J. D. Teylor, pending the arrival of a deputy district attorney from Tucson. Larkins and Francks were arrested in Lowell last week by United States customs officers, who claim to have found the drug in the rear of Larkins' second hand store.

FEDERAL PROBE NETS NEW GERMAN DIPLOMAT

(Continued From Page One.)

States attorney H. Snowden Marshall said tonight he had received no official instructions from Washington to release from custody Wolfe von Igel, secretary to Captain Franz von Papen, recalled military attaché of the German embassy, upon the ground that he is a member of the staff of the German embassy and therefore immune from arrest. Von Igel was arrested early in the day by federal agents on a warrant charging complicity in the alleged plot to blow up the Welland Canal, a Canadian waterway.

Mr. Marshall, when informed of a Washington dispatch announcing that the State Department had requested von Igel's release, made the following statement:

"I have received no request from Washington to set von Igel at liberty. The reported action of the State Department comes as a distinct surprise to it cannot, even if true, effect von Igel's release tonight, as the courts have closed."
